Green technology

NEMOX TOWARDS A "GREEN" FUTURE

The range of Nemox products is renewed painted green ...

Since the beginning our motto was:

"A modern company that loves to merge the innovations of technology with total quality to make tomorrow's products today"

To continue on this path, we have decided to make an important change with focus on eco-sustainability.

Hence the "i-Green" line was born, which took shape following the development of the "ICEGREEN" project.

The i-Green line machines use only ecological gases with GWP Global Warming Potential, (capacity to retain heat of the various greenhouse gases) practically equal to Zero.

With this line, Nemox anticipated the intervention of the EU which issued a regulation about the use of fluorinated greenhouse gases.

The EU strategy on climate change adaptation defines a framework of mechanisms aimed at reducing current and future climate impacts.

Therefore, International action will be needed to reduce greenhouse gas emissions for future decades.

From January 1st 2022, the new regulation requires that only gas with GWP value less than 150 can be utilized.

Nemox has decided to make its contribution by using an ecological gas R290 with GWP value = 3 in its machines. This means that Nemox is reducing the impact on emissions by 99.95%.

Eco-sustainability in "i-Green" machines did not address only the gas change.

The i-Green machines also come with a eco-sustainable design.

They consume less electricity and are more efficient.

For this target we have chosen post-consumption recyclable materials, the packaging is completely recyclable or recycled cardboard, printed with water-based colors.

The color boxes have been eliminated, and for the internal packing protections the use of cardboard structures has been maximized.

Nemox is also increasing its digital information and advertising communications in order to substantially reduce utilization of paper.

Nemox also wants to contribute to the sustainability of food systems!

Household compressor machines i-Green

Have you ever wished to make gelato at home?

If the answer is YES, then Nemox is your ideal partner, with a wide range of domestic ice cream makers, designed and developed for every taste and need.

From the great experience as a manufacturer of professional ice cream machines, Nemox brings all the professional technology to the domestic ice cream makers. Grant high performance in a short time, a further guarantee they are all Made in Italy.

The design of Nemox machines is suitable for any type of environment, enhancing the design of every type of kitchen.

The refrigeration system is able to provide a large number of refrigeration units in a very short time. The result is a perfect gelato in about 20 minutes.

All the models are equipped with removable bowls, allowing to prepare different flavors in short time.

 220V-240V 50-60Hz/1 - 140W

Production

1 Kg (1,5l) - 15/20 min
 Stainless steel removable bowl

The "green" ecological evolution of Nemox best-selling machine! Gelatissimo Exclusive i-Green is presented in its eco-sustainable look using an ecological gas R290 with GWP = 3 which means reducing the impact on emissions by 99.95%.

Gelatissimo Exclusive i-Green consumes less electricity and is more efficient.

Gelatissimo Exclusive i-Green : the easier way to prepare delicious gelato, ice cream, sorbet granita and frozen yoghurt!

In only 15/20 minutes you will taste a very good product!

The control panel has been designed from a famous international designer and reflects the eco-friendly spirit of the new i-green version, on the control panel there are three chrome switches one is the main switch, one starts the paddle and one starts the refrigeration system.

The compressor is fitted with a safety device to prevent any possible damage to the motor unit

The quality/price ratio for this machine is particularly beneficial and recognized in many countries by marketing research institutes, for this reason the Gelatissimo Exclusive is the best selling machine of our gelato household range.

Gelatissimo Exclusive i-Green makes 1 kg.(1,5 Litres) of gelato, sorbet , frozen yoghurt in 15/20 minutes (10-20 portions)

You can prepare your ice cream both in the stainless steel AISI 304 fixed bowl or in the AISI 304 stainless steel removable bowl, absolutely hygienic and scratch-proof

The machine is equipped with two mixing paddles, one to be used with the fixed bowl and one for the removable bowl.

Use with fixed bowl

Insert the mixing paddle in the fixed bowl, tighten the paddle locking knob and put in place the fixed bowl protection on the fixed bowl. The machine is ready for use.

Use with removable bowl

Pour in the fixed bowl salt and water solution or food grade alcohol minimum 40% proof or higher.

Insert the removable bowl into the fixed bowl. Then lift it and CHECK THAT THE EXTERNAL WALL OF THE REMOVABLE BOWL IS COMPLETELY WET. Insert the mixing paddle for removable bowl and tighten the paddle locking knob. The machine is ready for use

The machine has a recommended capacity of 1Kg. of mixture. If larger quantities are poured in, the ice cream may increase in volume during the processing and could overflow. Furthermore, the final texture may be not as good.

DO NOT FILL THE BOWL MORE THAN HALF FULL. This will allow the volume to increase during churning to maximum bowl capacity.

Removable bowl, paddles, lid, spatula and measuring cup are dishwasher safe
