## **Declaration of Conformance for Materials and Articles Intended To Come Into Contact With Various Food Products**

It is hereby declared that the (low density and high density) Polyethylene material fulfills the requirements of the following EU Directives:

- 2002/95/EC
- 94/62/EC
- EC 1907/2006
- 2023/2006/EC
- 10/2011/EC
- Framework Regulation 1935/2004/EC

And the following Italian legislation:

- Ministerial Decree 21/03/1973 and subsequent updates and modifications

It is also declared material contains substances subjected to restrictions in the aforementioned legislations.

Recognized for materials and objects in contact with watery, acidic, alcoholic and fatty food products with simulants, A, B, C and D

The testing times and temperatures for Specific and Overall migration for additives and monomers were 2 hours @ 70°C or equivalent and 2 hours at 60°C. A pasteurization/sterilization step was also performed.

This declaration is valid as of the date specified below and it will be replaced when significant changes in the production of the material will cause changes of impacting legal conformity or when legislations specified as above will be modified and updated as to require a new compliance statement.
