Declaration of Food Safety Conformity

(Original - 624315)

Authorised Representative (Brand HQ)

Welbilt UK Limited, Ashbourne House, The Guildway, Old Portsmouth Road Guildford, Surrey, GU3 1LR, United Kingdom

Condition when placed on market

This declaration relates exclusively to the below listed (by part number) Merrychef approved accessories, this declaration is invalidated if these accessories are converted or modified in any way, or if the usage guideline available to each accessory is not adhered to.

Accessory details

Merrychef® eikon range solid PTFE based cooking accessories: -

The following accessories are either solid baskets or liner designs, they currently conform to the below standards for food safety:

EU: 10/2011 – Plastic materials and articles intended to come into contact with food.

EU: 1282/2011 – Plastic materials and articles intended to come into contact with food.

EU: 1183/2012 – Plastic materials and articles intended to come into contact with food.

EC: 1935/2004 – Materials and articles intended to come into contact with food.

202/72/EC – Materials and articles intended to come into contact with foodstuffs.

These products also comply with the applicable requirements of the pertinent sections of the code of federal regulation (CFR) of the US Food and Drug Administration (FDA) as described below.

21CFR177.1550 – Perfluorocarbon resin used as articles or components of articles intended to contact food.

21CFR178.3297 – Acceptable colorants for polymers used in articles intended to contact food.

In accordance with *REACH regulations*, Welbilt UK Ltd confirms that these products do not contain any of the 169 substances on the candidate list of substances of very high concern nor any of the 31 substances on the authorisation list as published on the ECHA website as of December 1, 2016.

Welbilt UK Ltd also confirms that, to our current knowledge, these products do not contain any of the 6 *RoHS* restricted substances in the electrical and electronic equipment as published on the NMO website as of December 11, 2016.

These below stated products are manufactured without the use of PFOA. Additionally, the raw materials used to produce these materials are manufactured using materials that were also produced without the use of PFOA.
